ABOUT US

Since 1944, Jolly Engineering Works has been a pioneer in India's builders' hardware industry.

Today, we take pride in our journey, crafting superior 'Made in India' products and in being the preferred hardware brand in India.

Our zeal for continuous innovation and dedicated craftsmanship has enabled us to integrate the science and art of hardware, to craft products and accessories that elevate spaces.

Our vast ranges of Hinges, Mortice Handles, Ball Bearing Drawer slides and accessories, are a testament to our unwavering commitment and learning. As a beacon of luxury hardware, we're dedicated to exceeding customer expectations and serving commercial and residential needs with unwavering integrity.

LIGNE

Stainless Steel L-Type Hinges

Designed to add ease and comfort to your modular kitchen, this hinge comes with an enhanced locking mechanism that doesn't allow the door to open beyond 90°.

This hinge is ideal for those pesky corner cupboards, that always manage to bruise the walls with their doors opening wide. With the L-type hinge, the cupboard doors as well as the walls remain protected and stylish for years!

Ideal for Rust Prevention

90° Bend with sharp corner

Compared with top-grade stainless steel in surface finish.

1 lakh cycle tested

Once More First in India

Very Long Life

DOOR STOPPER

Jolly's Pixel Door Stopper is adjustable to your needs and is the perfect solution to stop the auto closing motion of doors with an overhead door closer. It is designed to stop at various levels depending on your comfort and is in the truest sense, a high performer. The rubber at the base is shaped diagonally for smoothly curbing the door's movement.

A LEGACY THAT WAS PROUDLY

MADE IN INDIA

The House of Jolly was founded in 1944, with the long-standing vision of a self-reliant India.

Since then, with each new product, Jolly continues to add to the nation's manufacturing and skilled labour capabilities.

Bringing the best of global manufacturing techniques, for the first time in India,

Jolly, under the tutelage of its founder Pt. Sh. Jeetendra Nath Bhargava and his successor, have pioneered the Atma Nirbhar Bharat vision, since its inception.

We stand proud and continue to build towards our commitment to building India, one door, one hinge and one perfect fitting, at a time.

TOWER BOLT

A literal twist on a 'plot,' the new tower bolt by the House of Jolly is an exquisite embodiment of form and function. Featuring a swirl on a cubical base, the knob of the bolt is what truly sets it apart. Available in an array of finishes, this tower bolt can be effortlessly installed on all your doors and cupboards.

Our Legacy

1944

Our story started with a small hinge. In 1944 Pt. Sh. Jeetendra Nath Bhargava, pioneered the vision of a self-sufficient Indian hardware brand with Jolly's humble hinge.

Jolly[®]
Since 1944
JUST FIT & FORGET

1984

We had promises to keep. In 1984 we became the first brand in India to manufacture world class hinges on entirely automatic German Technology.

2000

In 2000, our hinges left the Indian shores to the world's leading multinationals.

2002

In 2002 we introduced stainless steel hinges of a superior quality and everlasting durability & revolutionized the future of hinge making.

2008

In 2008 we made a stir with our single piece tower bolt in stainless steel with the pledge towards creative innovation in design.

2012

In 2012, we introduced the L-type hinge with a sharp 90° bend in stainless steel. We challenged the word 'impossible' through constant learning & innovation.

2014

In 2014, we introduced an array of mortice handles with the artistry that elevated the door handle's reputation as a furnishing accessory for doors & decors.

2016

In 2016, we set foot in the world of furniture locks. Jolly's slim, elegant yet robust locks were received with a warm response.

2017

In 2017 we engraved another milestone by introducing ball bearing slides, manufactured in our automatic plants. The smooth function made an autograph style.

2018

In 2018 we introduced PVD coating on our sophisticated mortice handles for the first time in the country. This year again we pioneered the highly luminous PVD coated finish on the tower bolt, created from a single metal piece.

2019

In 2019, we redefined the world of designer cabinetry with our range of smooth and self-closing cabinet hinges and drawer slides.

2020

In 2020, we introduced the Cubo tower bolt, crafted out of a single metal piece with an unmatched smooth movement and durability.

2021

2021, we proudly presented Maranello, our premium range of exquisitely crafted, mortice handles, hinges and accessories. They are pure art work for the doors. In this year, we also created India's first sleek cylindrical tower bolt, and revised our range of hinges with lustrous PVD coated finishes.

“intelligent design meets luxury”

**Setting the foundation of
everlasting opulence !**
